Religion : Christian

Email: nabeeljaved2029@gmail.com

Contact : +971521077862

Nationality : Pakistan : Current Location : UAE

Professional Summary

Senior Full Stack Developer with 9+ years of experience, specializing in both front-end (UI) and backend (server, database) development. Highly experienced in designing, building, and maintaining end-to-end web and mobile applications with a strong focus on scalability, performance, security, and robust system architecture. Proven ability to translate complex business requirements into high-quality digital solutions, mentor developers, and contribute to technical and architectural decision-making.

Strong expertise in JavaScript, Python, and Nodejs, with deep hands-on experience in modern frameworks and technologies including React (with GSAP and Framer Motion for advanced UI animations and interactive experiences), Node.js, Laravel, and RESTful API development. Skilled in working with SQL and NoSQL databases, microservices architecture, and scalable backend systems.

Professional Experience

Lead Full Stack Developer – XAD Technologies LLC (Aug 2024 – Present) - UAE

www.xadtechnologies.com

1. Designed and developed front-end web architecture with emphasis on performance, responsiveness, and scalability.
2. Developed a Budget Management system for financial tracking, reporting, and fund control Fintech System Architecture.
3. Collaborated with UI/UX designers to translate designs into functional, user-friendly interfaces, GSAP Integrations & Advanced UI Animations.
4. Developed and maintained back-end services and RESTful APIs for ERP and enterprise systems, Fleet Management, Property Management and other's
5. Managed the full software development lifecycle from conception to deployment.
6. Ensured application security, scalability, reliability, and performance optimization.
7. Performed code reviews, testing, debugging, and optimization.
8. Maintained clear documentation and effective communication with stakeholders.

Full Stack Developer – Mighty Warner Technology (Mar 2022 – Jul 2024) - UAE

<https://www.mightywarner.ae/>

1. Delivered responsive and SEO-optimized web applications for 50+ clients across multiple industries.
2. Designed, developed, and tested new and existing projects using the PHP/Laravel framework.

3. Applied best-practice development patterns, followed design briefs, and ensured continuous integration, development, and maintenance of clean code.
4. Provided technical expertise while working on new and existing modules, features, and REST APIs.
5. Collaborated closely with front-end and back-end developers as well as UI/UX designers to ensure seamless project delivery.
6. Documented task progress, system architecture, and development processes for clarity and maintainability.
7. Stayed up to date with the latest PHP, Laravel, and web development trends and best practices.

Backend Developer – WebTrica Software House (Jan 2021– Jan 2022) – Pakistan

<https://webtrica.com/>

1. Developed server-side web application logic using JavaScript (Node.js).
2. Managed backend services and front-end applications.
3. Designed, developed, and maintained central databases, ensuring high performance and responsiveness.
4. Integrated user-facing elements with server-side logic.
5. Wrote reusable, testable, and efficient code following best practices.
6. Designed and implemented low-latency, high-availability backend applications.
7. Implemented application security and data protection mechanisms.
8. Integrated SQL/NoSQL data storage solutions and implemented caching mechanisms.

Mobile Application Developer – Time Expert Software House (2018 - 2020) - Pakistan

<https://timexperts.com.pk/>

- Designed, developed, and maintained Android applications using Java, following MVC/MVVM architecture.
- Built cross-platform mobile applications using Flutter (Dart).
- Integrated RESTful APIs for authentication and payment workflows.
- Implemented responsive UI/UX using XML (Android) and Flutter widgets.
- Managed local data persistence using SQLite and Shared Preferences.
- Implemented secure authentication, validation, and error handling.
- Collaborated with backend teams for API contracts and data flow.
- Performed debugging, testing, and performance optimization.
- Supported build generation and Google Play Store deployment.

Front-End Junior Developer – NetSol Technologies (2017) – Pakistan

<https://netsoltech.com/>

- Developed reusable UI components using React.js, JavaScript, TypeScript, HTML5, CSS3, SCSS.
- Translated UI/UX designs and wireframes into clean, maintainable code.
- Collaborated with Design and Backend teams to integrate RESTful APIs.
- Built responsive and cross-browser compatible interfaces.
- Optimized UI components for performance, accessibility, and scalability.
- Participated in the development lifecycle from specification to production.
- Debugged UI issues and supported QA during release cycles.

Sales Associate – Lifestyle & Fashion Retail

Azadea Group LLC (Paul, Mango, Bershka) (UAE / 2012 – 2016)

<https://www.azadea.com/en/>

Role Summary

Worked as a Sales Associate in a high-traffic lifestyle and fashion retail environment with hands-on exposure to CRM systems, POS platforms, and inventory management tools. Supported daily retail operations through system-driven workflows, sales reporting, and customer data handling while consistently meeting performance targets.

Key Responsibilities & System Exposure

- Utilized CRM and customer data systems to manage customer profiles, preferences, and loyalty interactions.
- Operated POS systems for billing, refunds, exchanges, and accurate cash/card transaction processing.
- Managed inventory management systems, including stock receiving, replenishment, cycle counts, and discrepancy reporting.
- Monitored sales KPIs and daily performance reports, supporting data-driven store decisions.
- Followed SOPs, compliance procedures, and system controls across retail operations.

Trainer | Full Stack Web & Mobile Development Courses

Zabeel Institute Sharjah

<https://zabeelinstitute.ae/>

- Conducted 20+ courses Full Stack Development, Mobile, Web, Coding, and other .

Key Skills & Technical Exposure

- CRM & Customer Data Handling
- POS Systems & Transaction Processing
- Inventory & Stock Management Systems
- Sales Reporting & KPI Tracking
- Process Compliance & Operational Workflows
- Communication, Team Collaboration & Time Management
